

AM600 Vantage

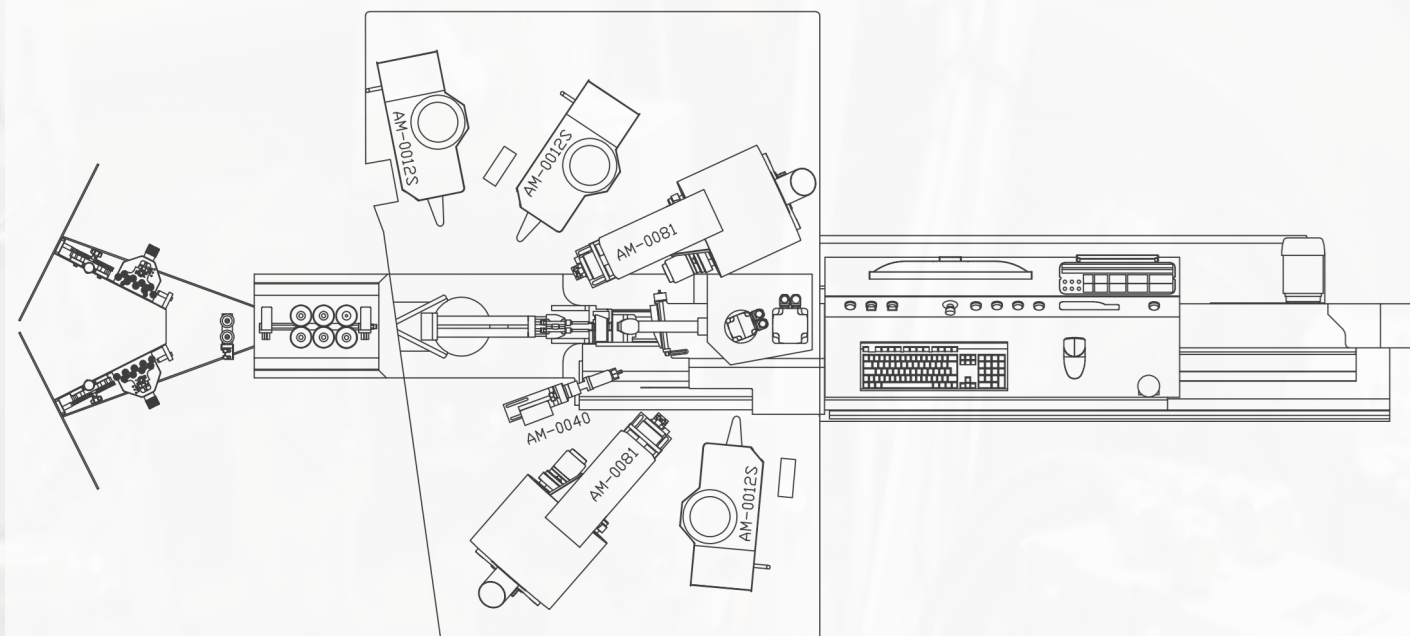

Fully automatic double wire machine

Caratteristiche

- CE compliant
- Equipment up to six processing stations ;
- Convertible wire feeding system from wheels to belts drive;
- Programmable cutting head;
- Programmable doubling wire unit;
- Adjustable wire straightener with memorized position ;
- Wire guide Ø1.3, Ø1.7, Ø2, Ø2.5, Ø3, Ø4.5;
- Maintenance kit;
- Upward-opening safety guard;
- Scraps box;
- Operator console with drawing and object holder;
- PC with original Win11 and monitor wide 21";
- Wirmec Vision Interface in local language;
- Wi-Fi, Ethernet and USB connection;
- Steel frame in Italian Design;
- Instruction manual;

Automatic cut, strip, and crimp machine equipable with up to six processing stations. Thanks to the integration of the new patented system for processing two different wires, it stands as an innovative and technological machine.

Processing:

Cut	
Strip	
Partial strip	
Crimp	
Accessories	
Inkjet printer	

Technical data:

Wire cross section: 0,13—2,5 mm² (4mm² option)

Wire length: 42 mm crimp side A

Accuracy: ±(0.2 % +1 mm)

Strip length: 1— 15 mm (> option)

Wire speed: 8.5 m/s

Power supply: 400 V 50 Hz—9 kVA

Air supply: 6-7 bar

Weight: ~1300Kg macchina base

Dimensions: L4000 x D1800 x H2000 mm

Options:

- *Electronic crimp height adjustment;*
- *Integrated crimp height gauge;*
- *Video camera on crimping machines (side A) for wire alignment from operator console;*
- *Integrated pull test;*
- *Paper wind;*
- *Terminals guide with end terminal detection;*
- *Conveyor belt prolong;*
- *Work area lighted;*
- *Convertible wire feeding system from wheels to belts drive;*

Performance
